Les Jeux de la XXII^e Olympiade se sont déroulés du 19 juillet au 3 août 1980 à Moscou, Tallinn (Regates olympiques), Leningrad, Kiev et Minsk (tournois de football).

Les Jeux ont réuni 5 748 sportifs de 81 pays des cinq continents et les représentants de 36 pays ont remporté les médailles olympiques.

Les arènes sportives ont vu établir 74 records olympiques et 36 records du monde. Les records olympiques ont été battus 241 fois et les records du monde 97 fois. Pour la première fois dans l'histoire des Jeux, le temps réalisé en nage libre chez les hommes (1 500 m) a été inférieur à 15 minutes. Pour la première fois a été établi un record du monde de saut en hauteur chez les hommes (2,36 m). En haltérophilie (catégorie jusqu'à 82,5 kg) on a enregistré, pour la première fois aussi, 400 kg aux deux mouvements. Le circuit cycliste olympique a vu améliorer 41 records du monde.

1 245 arbitres de 78 pays disposant d'appareillages d'arbitrage sophistiqués ont jugé les Jeux de Moscou.

De l'avis des responsables du C.I.O., des C.N.O., des F.I. et des participants eux-mêmes, les J.O. de Moscou se sont tenus à un très haut niveau.

Il n'y a aucun doute que les J.O. de la XXII^e Olympiade, suivis par quelque 5 millions de spectateurs, donnent une nouvelle impulsion au développement du mouvement olympique et du sport mondial.

The Games of the XXII Olympiad were held in Moscow, Tallinn (the Olympic Regatta), Leningrad, Kiev and Minsk (football tournament matches) from July 19 to August 3, 1980.

A total of 5,748 athletes from 81 countries of all five continents competed at the Games. Representatives of 36 countries won 203 sets of Olympic medals.

There were 74 Olympic and 36 world records set at the Games. The competitors exceeded previous Olympic records 241 times, and world records, 97 times. For the first time, the 15-minute barrier was broken in the men's 1,500-metre freestyle swimming event. For the first time in the history of Olympic athletics competition the men's high jump event ended in a world record—236 centimetres. Another first was the 400-kilogramme total in the two Olympic lifts (weight class up to 82.5 kilograms). World records were broken 41 times at the Olympic Velodrome.

There were 1,245 referees from 78 countries at the Moscow Games, widely aided by the latest equipment.

The 1980 Olympics in Moscow were conducted in the best possible way—such is the opinion expressed by the leaders of the International Olympic Committee, National Olympic Committees and International Federations, and by the competitors themselves.

The Games of the XXII Olympiad, attended by about five million people, will no doubt give a new impetus to the development of the Olympic movement and world sports in general.

Notes on the digitized version of the Official Report of the Games of the XXIIInd Olympiad Moscow 1980 – Volume 3: Participants and Results

The digital version of the Official Report of the Games of the XXIIInd Olympiad Moscow 1980 - Volume 3 was created with the intention of producing the closest possible replica of the original printed document. These technical notes describe the differences between the digital and printed documents and the technical details of the digital document.

The original document

The original paper version of the Official Report of the Games of the XXIIInd Olympiad Moscow 1980 - Volume 3: Participants and Results has dimensions of 8.6" x 11.3" (22cm x 28.7cm).

The volume's spine is of green cloth. The words "Jeux de la XXIIe Olympiade" & "Games of the XXII Olympiad", the numeral "3" and the Olympic emblem appear in gold on the spine.

The book has 644 pages.

The fonts used in the digital version book for text, photograph captions and chapter headings are Helvetica and such system fonts as best approximate the original fonts.

Special features of the digital version:

- The spine is not included in the digital version.
- Blank pages are not included in the digital version.
- The digital version includes a bookmark list that functions as a hyper linked table of contents. Selecting a topic heading will take you to the corresponding section in the document.

The text on the Contents page contains an error. The section "Shooting, Pg. 530' listed in the Contents actually begins on page no. 528.
